

## June Board Meeting

John presented treasurer's report

John has filed the state paperwork for The Bodgery to be a Non-Stock Corp. It cost \$35.

Credit Card processor options.

Have Timm and JT write an API for Braintree. Hosted on Timm's server.

Use Paypal as a stopgap.

Will open bank account once paperwork has gone through.

Waiting on Kim for insurance paperwork still.

Setting up ledger and recurring payments - need bank account first.

JT is talking to Timm about the conditions required to setup Seltzer CRM on Timm's server.

Maybe incorporate Braintree into Seltzer.

JT is now "Organizer" of meetup.com account. We don't have to pay that fee anymore. (Woo!)

JT will donate a video recording system for security.

We want to install one video camera over the door that would broadcast - just to members?

Timm installed CRM on thebodgery.org.

Friday John and Rowan are going to do the planning for installing 220.

James will build a donation box of some sort.

John will come up with the dimensions for movable wall.
